**STIGA**

STIGA machines are engineered, designed and manufactured to the highest standards. They are built to last and deliver high performance.

Complex engineering that is intelligently made, simple to use and maintain.

What makes STIGA stand apart, is our passion to help every gardener enjoy their passion; to love tending their gardens, be they great or small and to get perfect results.

We at STIGA are green fingered engineers, with the hearts of gardeners.

Sean Robinson

**CHIEF EXECUTIVE OFFICER STIGA**

# STIGA RANGE

Our main goal is to ensure gardening is a pleasure making each garden a STIGA garden - a healthy and happy place to be.

We know that every season brings a different range of gardening tasks and we want to ensure that every gardener has the right tool for the job in hand. Every garden is different and so is every gardener and at STIGA we want to ensure that there is a choice to suit every different consumer.

Here at STIGA we have developed three different ranges to suit all our customers and the gardening tasks associated with each season

**The STIGA Essential range**, developed for gardening newbies and those who want to act quick and achieve a certain gardening standard.

**The STIGA Experience range**, the perfect way to experience something new and upgrade tools to take on larger gardening tasks and activities.

**The STIGA Expert range** – this includes the more powerful products for those with larger areas to maintain - perfect for professionals and the exacting gardener.

## ESSENTIAL

**FOR NEW AND  
QUICK GARDENERS**

- Lightweight tools
- Easy to adjust, start, control and use, finally easy to clean and store
- Simple and intuitive functions
- Precise results

## EXPERIENCE

**A STEP-UP  
WITH STIGA**

- Robust tools
- Tougher jobs
- Prolonged session
- Diversified work

## EXPERT

**THESE PRODUCTS  
MAKE YOU AN “EXPERT”**

- Durable
- Superior power output
- For intense working environment
- Customisable performance
- Most robust and responsive control

**STIGA E-Power is the next generation of battery power, produced, developed and tested by STIGA.**

Switching to battery is a garden lifestyle trend. Here at STIGA we recognise the wants and needs of all consumers and have designed and engineered a range of battery garden equipment for every gardener and every garden type. STIGA E-Power is the flexible energy that can be used with any tool; STIGA batteries have been developed and tested in all configurations for the ultimate power efficiency and safety. For any garden job there is a STIGA battery tool!

# 20V BATTERY SYSTEM

- The battery is perfectly integrated into the machines and tools
- State of charge always visible, thanks to the 4 LED
- Vent holes prevent overheating and extend battery life
- Smart features include tool recognition to always provide the most suitable performance

## ESSENTIAL SERIES 100

# 48V BATTERY SYSTEM

- Shares the same DNA with the 500, 700, and 900 Series
- The battery communicates with the tool and viceversa
- Integrated black box stores information of the entire battery life-cycle

## EXPERIENCE SERIES 500 SERIES 700

## EXPERT SERIES 900

ESSENTIAL

# 20V BATTERY SERIES 100

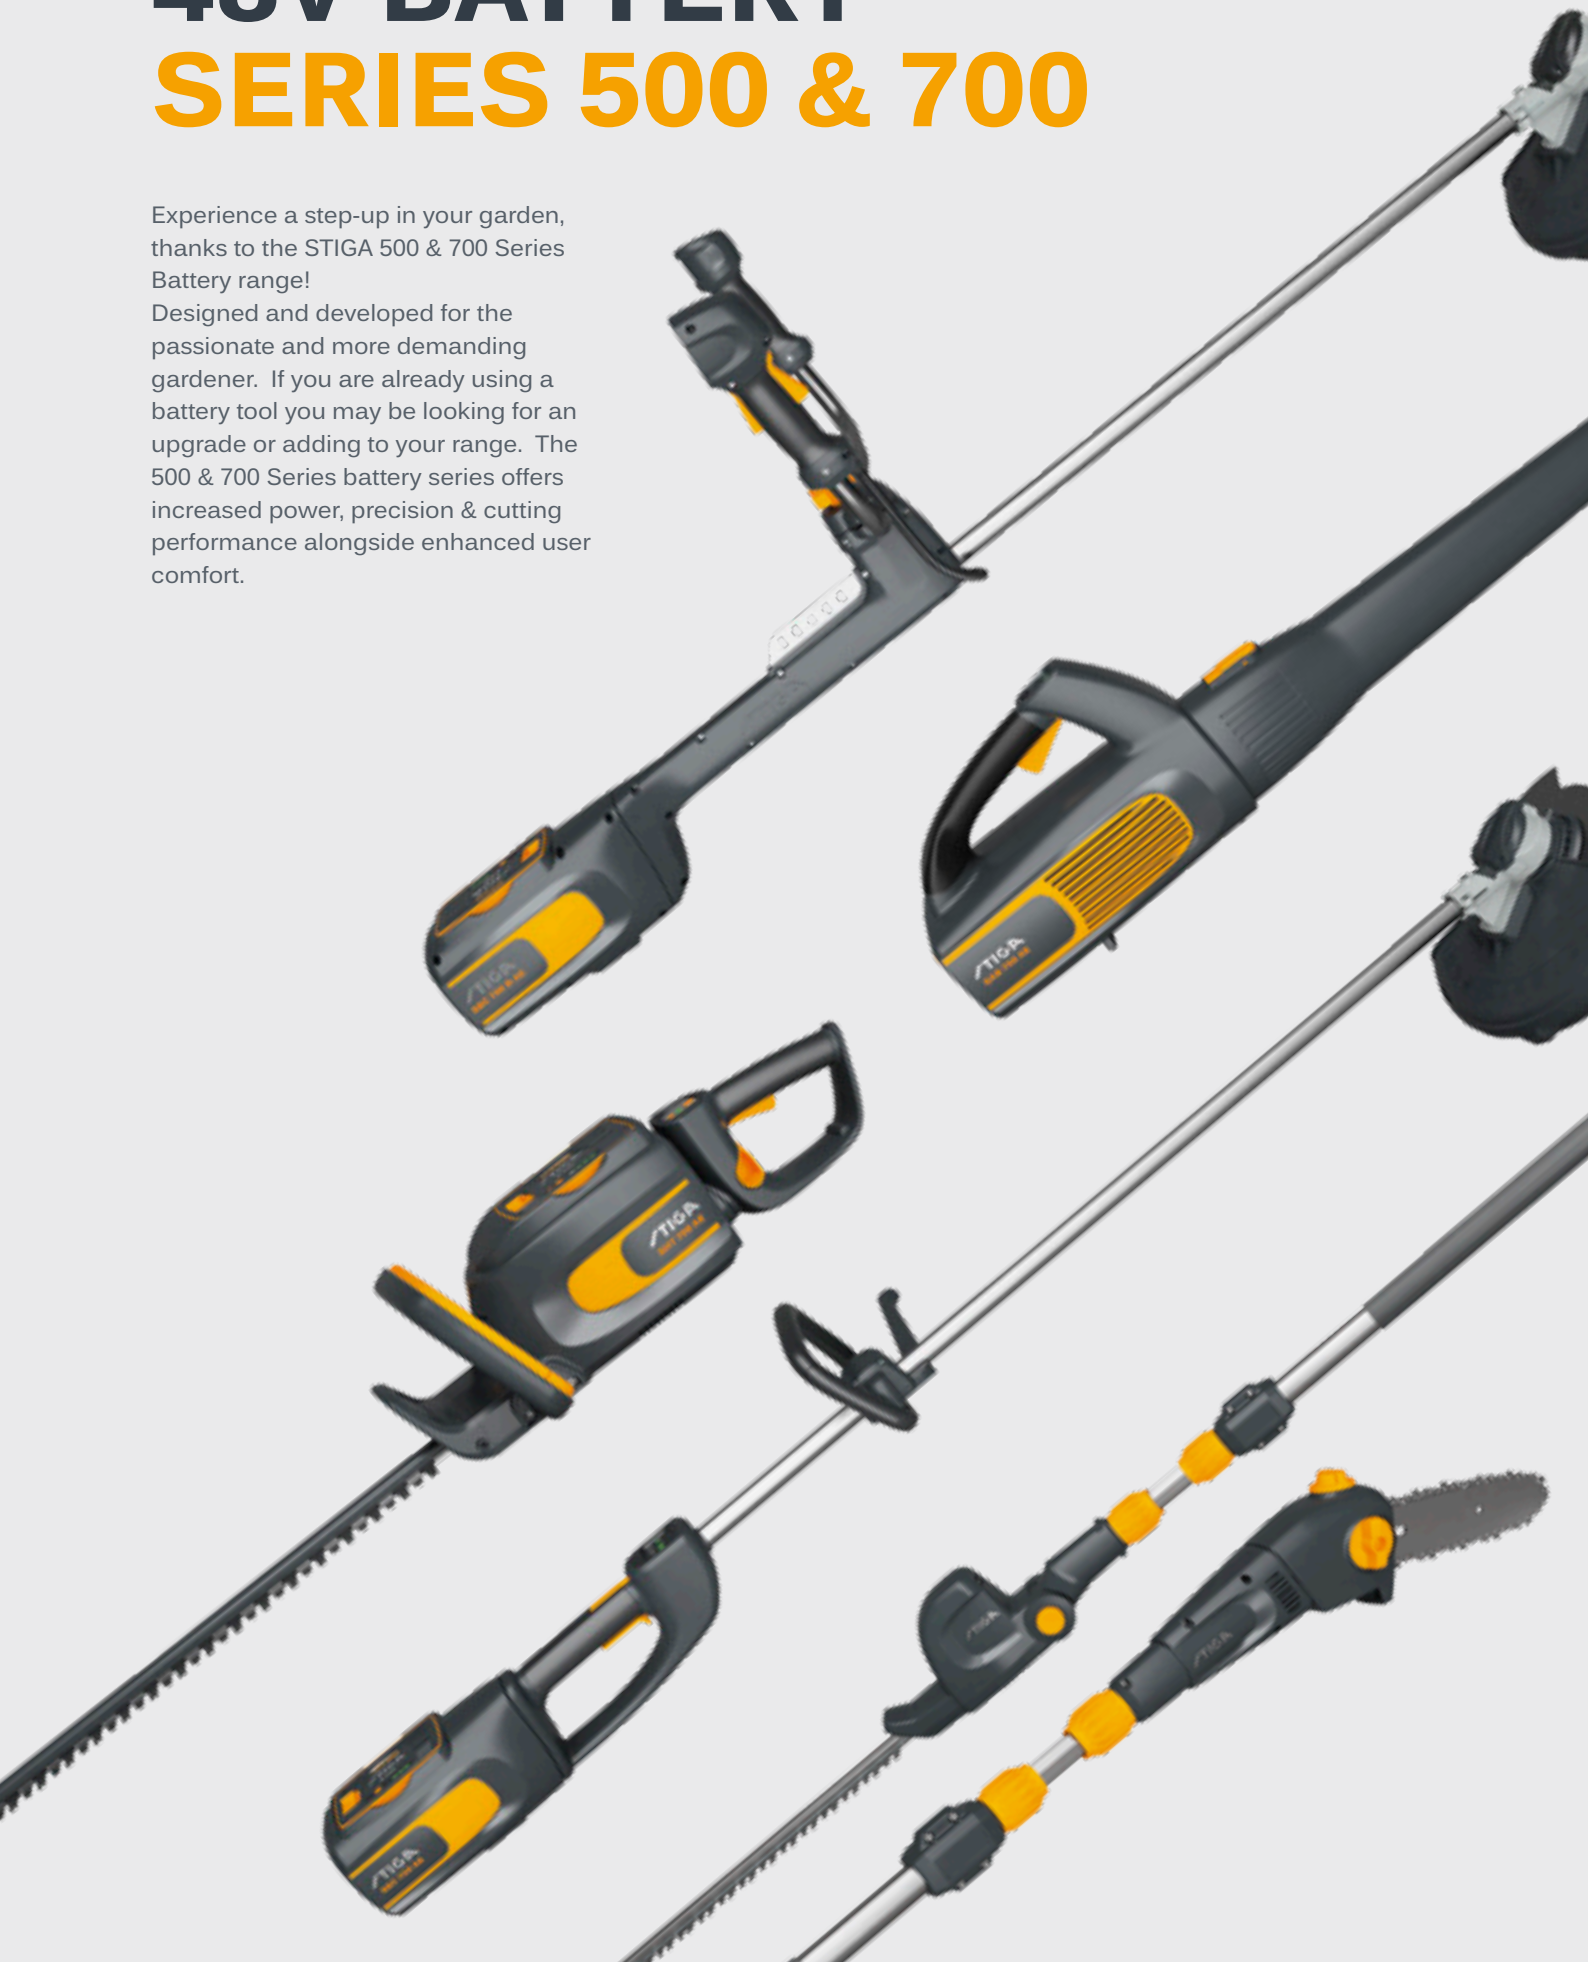

The STIGA 20V battery range, 100 Series, includes lightweight, easy to use and intuitive tools, giving precise results with minimum effort. With no cables and no starting problems these lightweight tools are a real pleasure to use and won't tie you down! All you need to do is plug in the battery, push START... and off you go!

# EXPERIENCE 48V BATTERY SERIES 500 & 700

Experience a step-up in your garden, thanks to the STIGA 500 & 700 Series Battery range!

Designed and developed for the passionate and more demanding gardener. If you are already using a battery tool you may be looking for an upgrade or adding to your range. The 500 & 700 Series battery series offers increased power, precision & cutting performance alongside enhanced user comfort.

# EXPERT 48V BATTERY SERIES 900

This product range will meet the highest expectations of both gardeners and professionals alike who have previously used petrol mowers and garden tools and now desire to convert to battery. The 900 series is the new STIGA Expert Battery Range offering performance equal to most powerful petrol machines, whilst all the advantages of working with battery tools.

# Front Mowers

Park Pro, Park & Villa

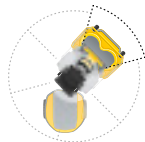

# Meet the challenges of mowing head on

No matter what the garden looks like and how complex it might be: any situation can be managed with a STIGA front mower!

These machines offer great cutting and mulching performance thanks to the high-quality blades, and the unique STIGA articulated steering allows them to easily manoeuvre around obstacles such as trees, stones and flowerbeds.

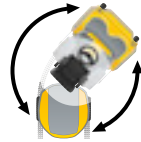

## Being a STIGA front mower

### EASE OF USE

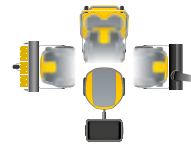

Thanks to STIGA Quick Flip technology, the deck can be placed in the maintenance position within seconds and without the need for any tools.

The RAC connection system allows for the deck to be replaced with one of the many attachments available, full details of the attachments can be found on pages 21 -27.

### DRIVING COMFORT

All STIGA Park front-mowers (with the exception of the Park 120 and 220) are articulated machines that can be manoeuvred easily in the most space-restricted areas: the machine bends in the middle and the rear wheels follow the front exactly – drive without worrying about accidental impact.

### PERFORMANCE

STIGA front mowers are powered by high-quality twin and single cylinder engines. Efficient and reliable these engines are made from high quality components that are vigorously tested.

## ADDITIONAL FEATURES

### QUICK FLIP

#### QUICK FLIP TECHNOLOGY AND RAC SYSTEM

Raising the deck for cleaning will take less than 30 seconds. Switching front Accessories and attachments can be done without any additional tools.

#### TOP QUALITY MANEUVERABILITY

With STIGA articulated steering, mowing around obstacles is easy and prevents arm fatigue. Top-of-the-range models feature Four-wheel drive traction.

#### COMBI DECKS UP TO 125 CM

A wide range of decks from 85 to 125 cm with 2 or 3 mulching cutting blades. Mulching can be done for fine cutting, while rear discharge suits longer grass.

#### PEDAL OPERATED HYDROSTATIC TRANSMISSION

With no gears to operate, hands remain comfortably on the steering wheel for less tiring and safer cutting sessions.

#### LED HEADLIGHTS

They give greater visibility during low-light sessions, this is particularly useful in Winter.

# PARK 2021

Achieving new standards the sixth generation of Park front mowers are the most innovative, practical and consumer friendly ever introduced and are evolved from the 45-year history of the brand.

The aesthetic redesign of the body ensures a modern style that reflects user demands and improved technical performance, including enhanced air flow that reduces oil temperature by up to 10%. In addition uphill traction on 4WD models has been improved; selected models also benefit from superior lighting and Blue Tooth connectivity via a dedicated App.

**STEEL REAR BUMPER**  
Increasing the robustness in case of accidental impacts

**EXTERNAL FUEL CAP**  
To easy refill, without lifting the bonnet

**ERGONOMIC SIDE PANEL**, from series 300 to series 700 models, with all commands at hand

**REAR REFLECTORS**  
Enhanced visibility when working on public areas

**QUICK FLIP TECHNOLOGY**  
for the easiest way to access the lower part of the deck for maintenance and cleaning

### PERFECT VISIBILITY

A cutting deck positioned in front of the machines for a better view of the job in front.

### NEW LED HEADLIGHTS

- 5 different front LED headlights from 6W to 15W
- Intensively tested to offer the most comfortable experience ever

### IMPROVING THE INVISIBLE

- New improved hydraulic traction system
- Oil flow has been completely reversed
- Efficiency of the 4WD improved by 34%

With stiga 50:50 articulated steering, you can handle any complexity

# Park Pro

Get the job done, eight hours a day

The STIGA Park Pro front-mowers offer the ultimate combination of raw power, flexibility of use and precision cutting.

- **Top mulching performance**
- **Exclusive 50:50 articulated steering with hydro piston**
- **Four-wheel drive traction**
- **Heavy duty structure**
- **Great stability**
- **Hydraulic tool lift**
- **Quick Flip technology**
- **All-seasons machine**

## Combi decks

STIGA Combi decks combine two mowing techniques, so you are able to choose the best cutting method, depending on the lawn's conditions. Mulching is perfect for fine cutting and naturally fertilizing the lawn. If grass has grown tall, rear discharge may be preferable.

The cutting decks are fitted with 2 or 3 blades depending on the model and are aerodynamically shaped offering excellent mulching performance. View the deck compatibility chart to find the deck(s) recommended for each Park front mower.

**QUICK  
FLIP**

### QUICK FLIP TECHNOLOGY

Raising the deck for cleaning or maintenance will take less than 30 seconds and it won't require any additional tool.

## Release And Connect (RAC) system

The RAC Quick connection allows you to quickly switch accessories and attachments on a front mower. The operation takes less than one minute and needs no additional tools.

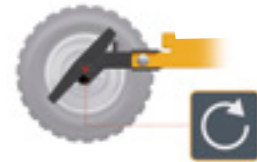

RAC is available as standard on the STIGA Park models and as an option on the STIGA Villa models.

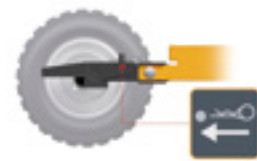

Secure the accessory hook

Move the lever arm up using your foot

Lock the arm in the correct position

Secure the lock using a split pin

# Villa

## Great versatility, easy management

The STIGA Villa front mower with its light and precise rear wheel steering makes it extremely manoeuvrable. With build quality you can trust the Villa offers outstanding value for money without compromising on performance. The Villa is compatible with a wide range of implements making it an ideal mower for all four seasons.

# Zero Turn Mowers

Enjoy efficiency and agility

With their two independent hydrostatic transmission and front castor- wheels working to facilitate zero-turn manoeuvres, these advanced, lever-controlled ride-on mowers are extremely nippy and agile and make it quicker and easier to negotiate trees, ornaments, furniture and other garden obstacles.

- **Robust steel deck with three blades**
- **High speed performance**
- **Comfortable seat absorbs vibrations**
- **Foot operated deck lift: for raising and lowering the deck without having to stop**
- **Adjustable control levers: for a customized driving position**
- **Low vibrations**

# Lawn Tractors

Estate, Tornado & Combi

# Born to ride everywhere

Driving through large and complex lawns in total comfort means riding a STIGA lawn tractor. Robust well-equipped machines, with powerful engines and advanced function they are the ultimate choice for any challenging garden task. From cutting and collecting grass to mulching and fertilising. Discover how easy big lawn care can be.

## Being a STIGA lawn tractor

### EXCELLENT CUTTING

All tractors offer excellent cutting-performance, whatever the grass conditions. Thick, overgrown and damp grass can be quickly and efficiently cut and collected or rear-discharged. A mulch-kit comes as standard with every model.

### POWER AND CONTROL

All tractors are powered by high-performance twin- and single-cylinder engines. Efficiency, component-quality and reliability are the main attributes of all the engines chosen to power STIGA machines.

### ROBUST AND STURDY

All tractors are constructed around a highly robust chassis. Some models feature a reinforced heavy-duty deck; while others benefit from a cast-iron front axle that contributes further to overall strength and durability.

## ADDITIONAL FEATURES

### MAXIMUM CONTROL

Four-wheel drive traction allows to have improved grip on sloping and uneven terrains, while cruise control makes speed management easier.

### PEDAL OPERATED HYDROSTATIC TRANSMISSION

With no gears to operate, hands remain comfortably on the steering wheel for less tiring and safer cutting sessions.

### CUTTING WIDTH UP TO 122 CM

Wide and reinforced cutting decks prevent blockages, even with wet and tall grass. Featuring timed blades and anti-scalp wheels, they can be set up to 9 different cutting positions.

### INTUITIVE DASHBOARD

All operating information can be checked from the 6-LED or smart 5.5" widescreen display, also featuring Best Cutting Zone function. Blade engagement is button-operated and easy.

### WORK IN COMFORT

STIGA Comfort Plus Seat is fully adjustable and equipped with high back support and armrests.

The soft and ergonomic steering wheel offers optimal grip while the ABS panel absorbs vibrations at foot level.

# e-RIDE

STIGA e-Ride is the very first generation battery-powered tractors, completely designed, developed and produced by STIGA.

An electric tractor offers the same performance as a petrol-powered one, but without all the maintenance connected to being petrol-powered: no refueling, no oil to drain, no spark plugs to replace.

You just need to recharge the battery and off you go!

Recharge plug under the seat

Electric transmission for extremely silent and smooth power delivery

LED headlights for safe operations in poor light conditions

IP65, water protection for motors and electric system allows easy cleaning

2 Electric blade motors, 1,5 kW per blade ensure the highest cutting efficiency & performance

Battery-powered motor grants lower sound levels and low vibration

## BATTERY

- Premium battery cells with STIGA layout
- High durability, no memory effect
- Good air circulation between cells and low stress for the cells' life
- No stressed cells means longer service life

## ELECTRIC BLADE MOTORS

- Reduced maintenance, thanks to brushless DC motors mounted directly on the cutting deck, with no need of pulley or belt
- Efficiency up to 85% - no loss of power means higher runtime
- Maximum power & cutting performance in heavy load conditions
- 100% electric means noise reduction and better sound quality

## STIGA ELECTRIC TRANSMISSION

- Top-level usability is given by digitally controlled electric motor transmission
- Maneuvering precision
- Possibility to climb up to 10° slope

## STIGA.GO APP

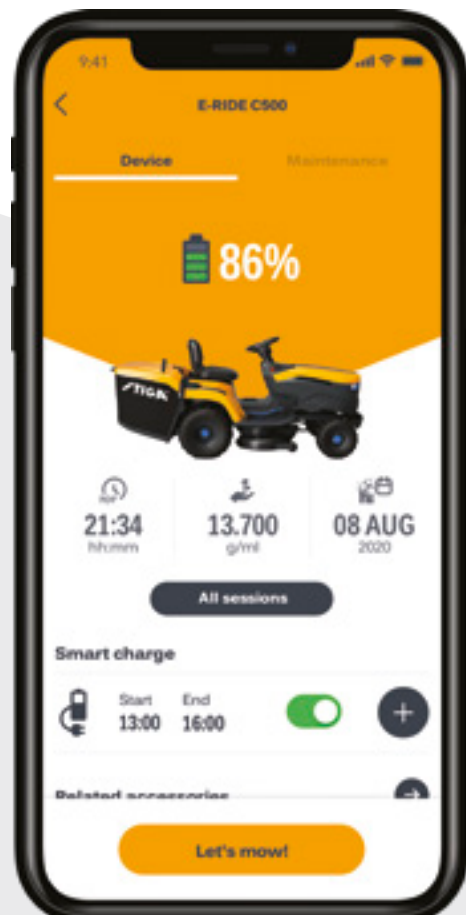

STIGA connectivity on the e-Ride offers advanced features for an enhanced mowing and an easier life.

The machine connects to a smartphone thanks to Bluetooth communication.

The STIGA.GO mobile app allows you to:

The STIGA.GO mobile APP allows you to:

- See all information about your e-Ride, including the amount of CO2 saved from the beginning
- Schedule charging day and time with 2 possible sessions, in order to save costs
- Use the virtual dashboard while cutting (on e-Ride C500 and S500)
- See scheduled maintenance activities and add extra-activities if needed
- Contact your selected dealer and share the status of the machine with him with just one tap

# e-Ride

Battery powered performance

A close-up photograph of the front of a STIGA lawn mower. The image shows a bright yellow plastic housing on the left, which houses a clear headlight assembly with multiple lenses. To the right, a black plastic component features the 'STIGA' logo in a silver, embossed font. Below the logo is a black plastic grille with a pattern of small circular holes. The background is a blurred green lawn.

STIGA

## E-RIDE C500

- Battery powered petrol-free and stress-free riding mower
- Cutting-edge and feature-packed – quick start, eco mode, cruise control, LED headlights and more
- 240l grass collector and mulching plug
- Powerful 1.2kW transaxle motor, and two cutting blade motors totalling 3kW
- 84cm cutting width, adjustable to 7 different heights
- 48V 40Ah battery included – standard charger included, fast charger available as optional accessory

# Estate

## The collecting hero

From compact and easy to manage domestic-use machines, through to powerful, robust, fast-working commercial-duty models, STIGA's Estate line-up includes a garden tractor to meet every requirement and every budget!

All STIGA Estate garden tractors are three-in-one machines capable of either collecting, rear-discharging or mulching clippings, which in turn means they can handle long grass, short grass and everything in between.

- **Extreme cutting precision**
- **Powerful engines**
- **Robust structure**
- **Mulching function available as standard**
- **Smart widescreen 5.5" display**
- **LED lights**
- **A wide range of accessories and attachments ensures great versatility, making Estate an all-season-machine**

# Tornado

## No lawn is impossible

STIGA Tornado garden-tractors are powerful, heavy-duty machines designed to meet the needs of both hardworking professional landscapers and exacting domestic gardeners!

Their dedicated side-discharge design saves time by eliminating the need for collection and ensures they'll take the sort of overgrown grass found in meadows and outlying informal areas in their stride.

- **Powerful engines**
- **Highest cutting performances**
- **Solid framework**
- **Comfortable seat and soft-grip steering wheel**
- **Mulching function available as standard**
- **Smart widescreen 5.5" display (on selected models)**
- **LED lights**
- **No box to empty**
- **A wide range of accessories and attachments ensures great versatility, making Tornado an all-season-machine**

# Combi

## The small garden conqueror

Thanks to its compact dimensions and excellent maneuverability, a Combi ride-on is the perfect choice for taking care of smaller lawns where there are obstacles and complex borders to negotiate.

- **Full, unrestricted view of the working area**
- **Three cutting-methods available: collection, side discharge, mulching**
- **The ideal upgrade from a larger walk-behind mower**
- **Ease of use**

## Multi-Connect System

The Multi-connect system enables you to switch between a wide choice of implements for spring, autumn, and winter use. Extremely versatile; switching accessories is quick and easy and requires no tools. Choose from a wide selection of implements, but please ensure you choose the correct Multi-connect system to suit your model (2WD or 4WD) or speak to your local STIGA dealer who will be happy to help.

+

### PTO KIT

Attached to the tractor it can be left in position even without using the implements itself.

# stig

Stig is a combination of fresh engineering and lawn cutting expertise collected by STIGA over many years. Designed and engineered from the inside-out to maintain your lawn to perfection. Stig is not just a mower – it is a new way of living .

Lightweight & compact:  
perfectly balanced for all  
terrain - slopes up to 45% (24°)

Simple, intuitive  
on-board control  
panel + App  
connectivity and  
control

Noise reduction  
built-in-robust shell  
constructed from a plastic  
consisting of polypropylene  
and 30% talc

High performance  
cutting by 4 pivoting  
blades

The highest safety  
levels - from front  
to back

## THE BODY

- Suitable for multiple garden types - up to 1200 sqm
- Compact – can tackle complex gardens and narrow spaces bypassing trees and bushes
- Lightweight - less than 8 kg
- Minimum Noise – the bottom cover is made from a material that absorbs and reduces noise
- Perfect balance – thanks to the design of the chassis the centre of gravity allows the robot to climb slopes up to 45% (24°)

## THE HEART

- High-quality battery, ensuring stunning performance and a long life
- 3 years performance (1500 charging and discharging cycles)
- Provides energy to brushless wheels & blade motors

## THE BRAIN

- Stig's brain has two hemispheres: one for power and the one for logic
- By setting up to 5 "Go-to-Cut" points, Stig will learn where to start the cutting sessions along the wire
- The rain sensor will ensure a correct recognition of rain and false humidity cases
- Soft obstacle detection sensors

## RELATIONSHIP WITH THE USER

The user interface is made of simple and intuitive functions:

- On/Off switch
- Start
- Go home
- Bluetooth activation/pairing
- Spot cut /scheduled cutting mode

## STIG APP

The new Stig App has been designed and developed by STIGA. It is both intuitive and easy to use, allowing you to communicate with Stig at anytime. Available on IOS and Android .

- Through the App you can
- schedule a cutting program
  - scheduled and spot cut
  - border cut
  - Go-To-Cut points
  - Eco-mode
  - set rain sensors

# STIG

- Mows up to 1200sqm (5Ah battery) or 600sqm (2.5Ah battery)
- Choose between scheduled cutting session or spot cut, if you need Stig to immediately start cutting
- Intuitive keypad and controls
- Obstacle sensors protect the whole family
- Bluetooth-enabled for smartphone control through the STIG app
- Powered by 5Ah or 2.5Ah battery – sold separately

# Lawn Mowers

Twinclip, Multiclip, Combi & Collector

# A wide choice, for every type of garden

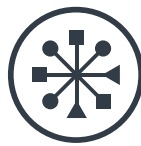

STIGA lawn mowers are easy to use, reliable and robust machines and this comprehensive range has been designed to meet every customer's lawn-care needs. Depending on the size of the garden, there is a variety of models to choose from, with different power sources and cutting systems: collecting, mulching and side discharge models, to suit all needs.

## Being a STIGA lawn mower

### TOP CUT PERFORMANCE

STIGA walk-behind lawn mowers offer an excellent mowing-experience and superior cutting-performance, through STIGA's patented dual-level Twinclip blade and STIGA's Multiclip technology. Four cutting-methods are available on these machines: collecting, mulching, side- and rear-discharge.

### A WIDE CHOICE

STIGA offers a wide selection of cutting-decks that vary in design and width. There's a deck-type to meet any lawn and any need!

### EQUIPPED FOR COMFORT

Available features - such as a Blade-Brake Clutch, an Anti-Vibration System and a grass-guard - make mowing easier and more enjoyable.

## ADDITIONAL FEATURES

### DIFFERENT POWER SOURCES

STIGA offers a wide choice of power sources, to suit all needs. Lawn mowers can be battery-, petrol- or electrically-powered.

### CAPACIOUS GRASSBAGS

STIGA collector bags are available up to a capacity of 70L, ideal for longer cutting sessions.

### WIDE RANGE OF CUTTING HEIGHTS

Cutting heights are easy to adjust - and with such a wide range, there is a mower to suit everyone.

### ERGONOMIC AND SMART HANDLES

All STIGA handlebars are designed to enhance ergonomics and comfort. STIGA battery-powered lawn mowers feature a new intuitive keypad.

### DRIVING

Lawn mowers can be self-propelled, for long and demanding sessions on larger lawns, or push-propelled, for small and domestic gardens.

### ADDITIONAL COMFORT FEATURES

**Electric start:** start the engine with the push of a button. No cord to pull.

**Speed variator:** adjusts the drive speed to a comfortable pace.

**Vibration Control System:** reduces vibration with shock absorbing materials.

**Blade Brake Clutch:** disengages the blade while keeping the engine on.

**Washing link:** to easily clean the deck after use.

**Vertical storage:** to store it vertically with oil and fuel on board and occupies less space.

**Roller versions:** replace the back wheels with a rear steel roller for the perfectly striped English garden.

# Twinclip

Superior cutting for perfect lawn care

STIGA Twinclip lawn mowers offer superior cutting- and collecting- performance with maximum comfort and impressive endurance. All models feature a double-edged Twinclip blade, that doubles mowing-efficiency for the perfect finish.

- **Double-edged Twinclip blade**
- **Special deck design**
- **Improved airflow**
- **Strong chassis and hybrid deck**
- **Heavy-duty transmission**
- **One-motion system: collector bag, cutting height and handle adjustment can be managed with just one hand**
- **Comfort**

## TWINCLIP 55 SVEQ H

- Self-propelled lawnmower equipped with Honda engine with electric start
- 4 cutting modes available: collecting, mulching, rear- or side-discharge
- Centrally-adjusted cutting height, up to 7 positions available
- Easy speed management with speed regulator
- Resistant and reliable galvanized steel deck
- Vibration control system included

## TWINCLIP 950 SQ AE

- Powerful battery-powered self-propelled lawnmower
- Ultra-powerful 2.2kW brushless motor delivers efficient mowing
- Double-layered blade maximises bagging efficiency
- Intuitive keypad with eco mode and six different speeds
- Extremely resistant aluminium wheel caps and carrying handle

**EPower**  
DRIVEN BY STIGA

BATTERY	TWINCLIP 950 SQ AE
Level	<b>EXPERT</b>
Series	900 series
Power source	Lithium-ion battery
Battery Voltage	48 V
Recommended Battery (Batteries & charger NOT included)	2 x 7.5Ah
Run time	Up to 40 mins dependent on conditions
Maximum working area	1100 m <sup>2</sup>
Cutting method	Collecting, Mulching, Side discharge, Rear discharge
Cutting width	48 cm
Deck material	Galvanized steel
Cutting height adjustment	Centralized
Cutting height positions	7 positions
Cutting height range	25 - 77 mm
Eco-mode	Yes
Driving	Self-propelled
Speed variator	Yes electronic
Collector capacity	70 L
Handlebar type	Ergonomic 25 mm with keypad, double hand switch and cam locks + soft grip
Wheels	210/240 mm grooved aluminum wheels on ball bearings
Product weight	42 kg
Art.-Nr.	294513898/ST1
Warranty	2-Years

### XC SYSTEM TECHNOLOGY

**Double-layered blade** specifically shaped to perform a double cut and make grass clippings smaller

**Special deck design** improving the airflow and the overall collecting performances

**Extrashield** protecting mechanical parts against dirt and bumps

### ONE MOTION SYSTEM

**Plug-in-box** allows you to plug it with just one hand and in just one movement

**Button-handle system** to regulate to desired cutting height in just one movement

**Overinjected levers** to adjust the Pro handlebar in height by means of a single motion

### STRONG CONSTRUCTION

**Composite deck** mixing the resistance of galvanized steel with the durability of aluminium

**Stronger chassis** with four moulding steps to double the stiffness

# Combi & Collector

The perfect combination of performance and comfort

The Combi models are versatile lawn mowers offering 3 or 4 cutting-systems in one machine. The airflow under the deck has been designed to improve cutting results.

- **3 or 4 in 1 cutting methods: collecting, mulching, side or rear discharge**
- **Front handle**
- **Skid plate to improve grass collection**
- **Central cutting height adjustment**
- **Grass catcher with full box indicator**
- **Washing link for quick wash of the deck**
- **Available power source: petrol, battery and electric**

## COMBI 955 SQ AE

- Ultra-powerful 2.2kW motor delivers an exceptional cut and run time
- 53cm cutting width, 6 speeds, sturdy cutting heights, and 4-in-1 cutting system
- Electric brushless transmission means more efficient and comfortable mowing
- Hard plastic front protects from obstacle impacts
- Strong carrying handle and folding handlebar for easy storage

# Multiclip

Save time, feed your lawn.

Robust, solid and efficient, STIGA Multiclip mowers feature specially-designed blades for top mulching results. These machines are built on steel chassis, resistant to knocks and rust. The STIGA Multiclip System cuts and recuts the grass into tiny pieces that simply wilt away, returning valuable nutrients back into the soil.

- **Multiclip technology**
- **Specially designed blades**
- **Strong and resistant chassis**
- **Time saver: reduces mowing time by 30%**
- **Cut and fertilize at the same time**
- **Reduce the need for watering**
- **Available power source: petrol and battery**

## MULTICLIP PRO 950 SX AE

- Powerful battery-powered selfpropelled mulching lawnmower

## Blades

### STANDARD BLADE

Linear and sharp design guarantees a perfect cut and improves the grass collection in rear discharge mode.

### WINGED BLADES

They are designed with a special fin on both tips to facilitate cut grass down flow, through the exhaust manifold, up to the grass catcher.

### COMBI BLADES

This versatile design combines the waved shape of the mulching blades with the long fins of the winged blades, allowing this blade to be used either in rear discharge or mulching mode.

### MULCHING BLADES

Waved design that allows the blade to mince grass into small particles, that become nourishment for the lawn.

### DOUBLE-LAYERED BLADES

Double-edged design that represents the evolution of the mulching blades. This patent pending design doubles mowing efficiency cutting the grass in two different times for power saving and optimizes grass collection for the perfect cut.

# Handhelds & Recycling

## For trimming, cutting, cleaning, soil and ground care

STIGA lawn trimmers, brushcutters and hedge trimmers are well balanced, ergonomic and performing machines, that combine great cutting results with maximum comfort. In case of rough grass, bushes or just lawn trimming, there is a STIGA machine to get the job done easily, efficiently and safely.

### Being a STIGA hand held

#### POWER AND PERFORMANCE

Reliable and powerful new engine technology guarantees perfect working activity, low emissions and -20% fuel consumption.

#### COMFORT AND SAFETY

Ergonomic soft-touch grip handles and a complex springs system ensure lower vibrations and a more comfortable experience.

#### RELIABILITY

Premium quality materials for strong and durable action and long-lasting machine life. Auto-choke system for enhanced performance and reliability.

# Hedge Trimmers

Precise cut and maximum comfort

## **PRECISE CUT**

The effective laser-cut double blade allows a fast and precise cut on any domestic hedge.

## **COMFORT**

An ergonomic handle - combined with an anti-vibration system – means users can work in the most natural and comfortable position.

## **ADJUSTABLE**

The rear handle can be turned through 180° and set in different positions for an easy shift from horizontal to vertical cutting.

## SHT 900 AE

- Battery hedge trimmer delivers 200 minutes of powerful cutting action
- 500W brushless motor ensures highperformance, continuous trimming
- Intuitive keypad for easy variable speed control and battery power management
- Ergonomic, soft-grip 180° rotating handle can be adjusted into 3 positions
- Robust cutter bar made from lightweight aluminium and high carbon steel
- Suggested battery: 48V 7.5Ah, plugged in the SBH 900 AE battery harness - both sold separately

# Lawn Trimmers & Brushcutters

Comprehensive range of powerful and reliable machines

## **CHOOSE YOUR POWER**

Available with different power sources, depending on your needs. Petrol engines are equipped with a technology that guarantees low emissions and -20% fuel consumption. For battery-powered models, you can choose your battery (see page 152).

## **COMFORT AND SAFETY**

Ergonomic soft-touch grip handles and an advanced springs system ensure lower vibrations and a more comfortable experience.

## **RELIABILITY**

Premium quality materials for strong and durable action and long-lasting machine life. Auto-choke system improves starting reliability.

## SBC 900 D AE

## Trimmer lines

### SP SQUARE

A 15 meter reel of square section line with a 2.4 mm diameter for STIGA lawn trimmers and brushcutters. This particular shape of line will guarantee a precise and quick cut.

Code	EAN	Section	Diameter (mm)	Length (m)	Type of pack

### ROUND TIGER SECTION

Professional quality, co-extruded trimmer lines for any type of use. Made with a unique blend of materials for superior cutting performance.

#### A more efficient cut:

- less breakage at the eyelet
- faster
- for grass and weeds
- flexible for better cutting around stony areas, fences and sidewalks.

## UNDULATED SECTION

SP66® is the only trimmer line that has been specifically developed for battery machines. SP66® has a patented raw material blend which is very hard wearing and has a higher melting point that eliminates welding in the head. The unique shaping process provides an aerodynamic profile with less air resistance, less vibrations and reduced noise emissions. These energy-saving features give a longer battery run time.

### Hard wearing:

- Superior resistance to abrasion and eyelet wear
- Very stable and durable

### Excellent aerodynamic Properties:

- Longer battery run time
- A faster cut than traditional lines
- Less effort required
- Reduced noise emission

### Usage:

- Battery machines
- All types of use

# Chainsaws

Top cutting performance  
and complete safety

STIGA chainsaws are designed to help you cut wood, whether you are carrying out intensive maintenance work, cutting up logs or pruning trees at home, offering you the security of a well-balanced saw with a good power-to-weight ratio.

## **CHOOSE YOUR POWER**

Available with different power sources, depending on your needs. Petrol engines are equipped with a technology that guarantees low emissions and -25% fuel consumption. For battery-powered models, you can choose your battery (see page 152).

## **COMFORT AND SAFETY**

Ergonomic soft-grip handles and the spring-system ensure minimise vibration-transfer and a more comfortable working experience.

## **RELIABILITY**

Premium-quality materials guarantee superior performance and an extended product-life. Auto-choke system improves starting reliability.

## SPS 700 AE

- Battery pole saw for powerful, continuous cutting
- 65cm telescopic shaft extends to 270cm
- 25cm cutting bar with high-performance chain
- Ergonomic, soft grip handle and shaft, including harness hook
- Blade cover protects chain from damage
- Suggested 48V 4Ah battery is sold separately

BATTERY	SPS 700 AE
Level	EXPERIENCE
Series	700 series
Power source	Lithium-ion battery
Recommended battery	4 Ah <b>(Not Included)</b>
Power	0.45 kW
Motor type	With brushes
Voltage	48 V
Working time (+/-20%)	30 mins
Bar length	25 cm
Bar length (inches)	10 in
Chain type	3/8" .050" (91PX040E)
Chain speed	5 m/s
Chain brake	No
Chain oil pump	Automatic
Chain tensioning system	Side screw tensioning
Product weight	4.4 kg
Art.-Nr.	277710048/ST1
Warranty	2-Years

BATTERY	SPR 500 AE (12")*
Level	EXPERIENCE
Series	500 series
Power source	Lithium-ion battery
Recommended battery	4 Ah <b>(Not Included)</b>
Power	1 kW
Motor type	Brushless
Voltage	48 V
Working time (+/-20%)	12 mins
Bar length	30 cm
Bar length (inches)	12 in
Chain type	3/8" .050" (91PX045E)
Chain speed	20 m/s
Chain brake	Manual
Chain oil pump	Automatic
Chain tensioning system	Side screw tensioning
Battery charger	Single standard
Vibration level rear handle (m/s <sup>2</sup> )	3.72
Vibration level front handle (m/s <sup>2</sup> )	4.37
Product weight	3.45 kg
Product weight without bar and chain	3.1 kg
Art.-Nr.	278420008/ST2
Warranty	2-Years

\*WARNING: These top-handled chainsaws are for use by trained tree service operators only. Used without proper training can result in serious injury.

## SP 526 (20")

**STIGA**  
**EXPERT**

- 52 cc petrol engine with a net power output of 2.3 kW
- 50 cm (20") cutting bar
- Chain speed of 23.1 m/s
- Net weight of 5.3 kg without bar and chain
- Vibration control system (VCS)
- Tensioning wrench supplied

# Garden Multi-Mate

The handy way to trim, cut, shape, prune and aerate

## CLEAN AND GREEN

Battery-powered for clean, green gardening. High energy-efficiency, low vibrations, reduced noise and minimum maintenance. Perfect for trimming shrubs and small bushes and keeping edges neat and trim.

## EASY

Easy plug-in battery charger for immediate re-charge. Accessories are quick and simple to attach via a tool-free 'click-in' system. Compact and easy to store.

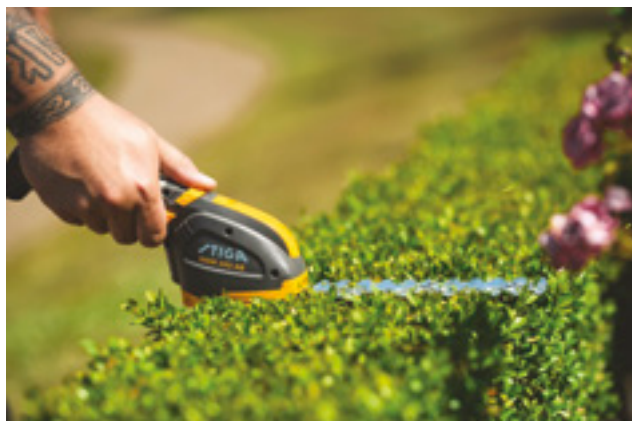

## VERSATILE

A grass and shrub blade are included; in addition there are different sized blades, a pruning disc, soil grubber and telescopic handle available to purchase separately.

## PRODUCT HERO

### SGM 102 AE

**SHRUB BLADE**

Precise hedge trimming, bushes shaping and box edge sculpturing.

**GRASS BLADE**

Accurate lawn trimming, lawn edging for a perfect finish.

**PRUNING DISC**

Sharp pruning of hedge, bush and tree branches.

**SOIL GRUBBER**

Assisted soil care on vases and flowerbeds.

# Multi-tool

One machine, many uses

## **MADE TO REACH HIGHER**

For gardens with difficult to reach bushes, trees and shrubs, a multi-tool is the answer. STIGA multi-tools are versatile products that plug into a single body and motor.

## **CHOOSE YOUR POWER**

With a range of different power sources depending on the consumer requirements.

## **VERSATILITY**

Extremely adaptable and with a wide range of accessories they are ideal for managing different tasks in the garden.

## SMT 500 AE

- Lightweight battery multi tool for hedge cutting and pruning
- 65cm telescopic extension reaches 2.95m (hedge trimmer) and 2.70m (pruner saw)
- 46cm dual action laser-cut hedge trimmer blade and 25cm pruner cutting bar
- 112° rotating handle, soft touch rubber grip handle and shaft
- Bumper on pruner attachment delivers maximum cutting precision

# Shredder

Get rid of garden waste with an eco-friendly tool

## KIND TO NATURE

Easy-to-use and environmentally-friendly machines to dispose of garden waste, both green and woody. The STIGA shredder is electrically powered.

## EASY TO USE

The bio silent shredder will effortlessly reduce garden-debris to a useful and valuable organic fertiliser for vegetable plots and flowerbeds.

## RECYCLE WASTE

These machines make gardening simpler, allowing the user to choose how to re-use garden waste.

<b>ELECTRIC</b>	<b>BIO SILENT 2500</b>
Level	ESSENTIAL
Motor type	Brushless
Maximum motor speed	2850 RPM
Motor power	2500 Watt
Maximum branch diameter	40 mm
Cutting method	Rotating roller with 8 teeth
Reverse function	Yes
Collector capacity	60 L
Included tools kit	Feeder
Guaranteed sound power level (LwA)	97 dB(A)
Product weight	27.4 kg
Art.-Nr.	290001252/14
Warranty	2-Years

# Scarifiers

Breathe new life into your lawn

## AERATE THE SOIL

The perfect machines for ground aeration, STIGA scarifiers will keep the lawn healthy and beautiful, right down to the roots.

## RELIABLE MACHINES

Suitable for soil and ground-care jobs, including bed-preparation and aeration.

## DIFFERENT POWER SOURCES AVAILABLE

STIGA scarifiers are available with electric- or petrol-powered engine, to suit all needs.

# Tillers and Scythe

Versatility and ease-of-use  
to face the most challenging tasks

## PREPARE THE GROUND

The perfect machines for ground preparation, to break-up and mix up clogs of earth, before seeds are sown.

## VERSATILE

The numerous accessories available mean these tools are extremely versatile.

## RELIABLE

Suitable for a variety of heavy-duty soil and ground-care jobs, including bed-preparation, aeration, ploughing and fertiliser-application.

### Rotary Garden Tillers

# Cleaning

# Powerful and easy-to-use cleaning tools for outdoor surfaces

Cleaning outdoor areas has never been easier.

The STIGA Cleaning range offers different solutions, to take care of your outdoor and get easily rid of dead leaves, grass cuttings, mud, dirt, dust or snow.

**BLOWERS**

A well-ordered, healthy garden also requires the removal of dry leaves – an essential task for reducing the formation of mosses and fungi and keeping your lawn in a healthy balance. STIGA leaf blowers/ vacuums make this task easier, giving you the power you need to get the job done quickly.

**HIGH PRESSURE CLEANERS**

When sweeping and collecting just doesn't get the job done, eliminate mould, grime, dust and mud with one of our pressure washers. From cleaning garden tools, cars and footpaths to outdoor toys, decking and even boats and caravans.

**SWEEPERS**

STIGA outdoor sweepers are the perfect product for cleaning snow, build-ups of leaves, dirt and lawn clippings from driveways and footpaths. Whether you need a manual or motorised product, you will find the right one to clean your surface.

# High Pressure Cleaners

## Tackle the toughest of cleaning jobs

### EASY TO USE

Just plug into any home electric power point and a water source and you are ready to start cleaning. Operating pressures range from 135bar through to 150bar, with all models benefitting from a handy integrated hose-reel.

### CLEAN ANY SURFACE

STIGA high-pressure washers will blast off dirt, dust and grime from a range of surfaces. Detergent tanks make it possible to introduce soap into the mix when tackling deeply ingrained oil and grease.

### VERSATILE MACHINES

Practical and convenient, STIGA pressure washers are ideal for cleaning patios, decking, walls, tarmac, engines and much more. With a wide range of compatible parts and accessories they become extremely versatile.

# Blowers

## An Autumn essential

### STRONG AND PRECISE

Thanks to their vacuum-capability (selected models) and focused airflow that avoids air dispersion, these machines are the ideal workmate in the battle to keep the garden and other outdoor spaces tidy, making them the essential Autumn garden tool!

### EASY TO USE

STIGA leaves-blowers are lightweight machines that will make it quick and easy to get the job done. Their perfect balance ensures maximum comfort.

### KEEP LAWN HEALTHY

The removal of dead, dried-out leaves, will keep the lawn healthy by avoiding the formation of growth-inhibiting moss and fungi.

Maximum air speed	92 m/s
Vacuum function	Yes
Vacuum bag capacity	45 L
Vibration level hand (m/s²)	1.7
Product weight	3.3 kg
Art.-Nr.	
Warranty	2-Years

# Sweepers

The easiest way to remove leaves and debris from driveways or footpaths

STIGA sweepers are the perfect garden accessory for all seasons - great for cleaning footpaths, lawns and outdoor areas. Whether you need a manual or motorised product we are sure you will find the right sweeper to suit your cleaning requirements – from fallen leaves, dirt, debris, lawn clippings and even snow!

## PUSH SWEEPER

STIGA outdoor push sweepers are easy-to-use, easy to manoeuvre, perfect for cleaning dust, dirt and residues from various hard surfaces. These lightweight, quiet sweepers are equipped with hard wearing brushes and have one of the best collecting systems in this category. They can easily collect compressed plastic bottles, cans and small stones – making large areas easy to keep clean.

## PETROL SWEEPERS

STIGA petrol outdoor sweepers are the perfect product for cleaning driveways and footpaths all year round, whether you need to clear leaves, lawn clippings or snow. Equipped with powerful brushes and pneumatic tyres, so you can take on even the most challenging tasks.

# Batteries and chargers

The SBH 900 is for use with the 900 and 700 Series battery range of handtools

- Comfortable battery harness for effortless gardening
- Holds 2 batteries - doubling the power available whilst freeing the hand-held tool from the battery weight
- Easy to switch over from one battery the other for uninterrupted runtime
- Adjustable harness clips distribute the battery weight perfectly
- Dummy battery accessory connects the harness to the STIGA 700 Series tools

# Accessories

For top quality results and to ensure the best performance

STIGA accessories are developed alongside our main equipment to ensure quality and safety, carrying out strict tests and careful checks throughout the process.

Our range also includes safety jackets and trousers, gloves, braces and helmets to perform even the toughest outdoor work in total comfort and safety.

STIGA original oils help keeping every STIGA tool at its best, operating smoothly in all weather conditions and extending its lifespan.

## Forestal jacket

Working jacket made in 4-way stretch micro-rip fabric.

### Packaging

Dimensions: 38.5x29x10 cm  
Gross weight: 1.240 kg

Code	EAN	Description	Size

# 4 Stroke Oil and Transmission Oil

Temperature performance

Viscosity performance

## 4 Stroke Oil

SAE 30 is superb for use from 0°C ambient temperature, the specifications API SL/CF mean that it is suitable for both diesel engines with and without turbo charger. SAE 10W-30 designates a multigrade-oil. "10W" and 5V viscosity of the oil at cold temperature and the number 30 indicates the viscosity at 100°C.

### IDEAL FOR

### SAE 5W-30 ALSO IDEAL FOR

Pos	Code	EAN	Type	Specification	Capacity	Note	Pcs/box	Box/pallet
1	1111-9234-01	7313329115090	SAE 30	API SL/CF - ACEA A3/B4	0.6 L	Export	16	35
